

ENTERING GRADE 10 IN 2027: SUBJECT CHOICE

All boys are required to take

ENGLISH

MATHEMATICS (or Maths Literacy)

a FIRST ADDITIONAL LANGUAGE

LIFE ORIENTATION

2. The First Additional Language (FAL) taken would be a continuation of the language studied in Gr 9. Afrikaans FAL or IsiXhosa FAL or French

French can be chosen here ONLY IF the boy is already exempt from the requirement of offering an African language.

3. Every boy would at least begin with Mathematics.

4. In addition, boys must choose three different subjects from the list below, just one subject in each column.

Physical Science
Life Sciences
History

Life Sciences
History
Accounting (see note e below)
Economics
Information Technology (see note e below)
Geography
Engineering and Graphic Design (see note d below)

Life Sciences
History
Accounting (see note e below)
Economics
Information Technology (see note e below)
Geography
Drama
Visual Arts
Music
French SAL

Notes

- French or isiXhosa may not be taken as both FAL and SAL
- If Information Technology or Economics is chosen, boys will be required to write an aptitude test, and if that seems to indicate that the boy will struggle with the subject, he would be encouraged to consider an alternative.
- A boy should not choose Physical Science, IT or Economics if he is likely to take Mathematical Literacy. He cannot enter for the matric exam in Physical Science if he is taking Mathematical Literacy.
- Engineering and Graphic Design is limited to 25 places.
- We have offered Accounting and Information Technology in two places. Depending on the demand for each subject, it might be feasible to only offer them in one place in the choice. In that case we will contact you to review your choice.
